

SwiftSeat

IRCTC Tatkal Booking Automation Engine

₹99 / mo

UNLIMITED BOOKINGS

Key Features Fast & Secure

 Instant Passenger Autofill

Fills name, age, gender, berth preference & mobile number in under 2 seconds automatically.

 30-Second Pre-Start

Auto-launches 30s before Tatkal window (10 AM AC / 11 AM Sleeper) so you are ready.

 Auto Credentials & Captcha

Injects login details safely and focuses the Captcha box so you only type the letters.

 Live Screen Streaming

Monitor the entire automation live from your browser dashboard via real-time screen stream.

Automation Workflow Hybrid System

 Bot Handles (Automatic)

- Enters From & To station codes (YNK → YG).
- Fills journey date, train & quota options.
- Injects all passenger details instantly.
- Points you to the final payment box.

 You Handle (Manual)

- Type login Captcha (if prompt appears).
- Click Sleeper/AC class & click 'Book Now'.
- Type final payment Captcha.
- Approve UPI payment on your phone.

Manual vs Swift Seat Performance

TASK	MANUAL BOOKING	SWIFT SEAT 
Passenger Entry Time	45 – 90 seconds	Under 2 Seconds
Search & Date Setup	20 – 30 seconds	Instant / Auto
Total Time to Payment	2 – 4 minutes	Under 30 Seconds
Tatkal Success Rate	~15% chance	~85%+ Success
Pre-Start Timer	No	30s Before Window

Step-by-Step Setup Guide Easy 5 Steps

1 Get License Key & Activate

Visit hikershorizon.in/swiftseat, enter your email and pay ₹99. Copy your generated key and paste it into the dashboard/extension to activate.

2 Configure Form Details

Enter your IRCTC login credentials, route (e.g., YNK to YG), train number, class, journey date, and passenger list into the dashboard.

3 Start Sequence or Set Auto-Start

Click **Start Sequence** or enable **Auto-Start** mode (starts 30s before 10 AM / 11 AM window). The bot opens IRCTC and initiates search.

4 Select Class & Book Now (Manual Step)

The bot navigates to train results. Immediately click your class (Sleeper/AC) and click **Book Now**. The bot instantly injects all passengers!

5 Solve Captcha & Complete Payment

Type the Captcha, select your preferred payment mode (UPI/Card), and approve payment on your phone to confirm your ticket!

Pro-Tip for Maximum Speed

Keep your UPI app (GPay / PhonePe / Paytm) open on your smartphone before starting. Once you submit the payment step on IRCTC, approve the UPI request immediately!

Frequently Asked Questions FAQ

Are my credentials safe?

Yes. Password & passenger data are stored strictly on your local device. We never transmit or store your login info on external servers.

Which browsers are supported?

Google Chrome and Microsoft Edge on Windows, macOS, and Linux desktop operating systems.

What if the page hangs?

If IRCTC servers slow down, simply press F5 to reload. The bot resumes automation automatically from the current step.

How long does ₹99 subscription last?

Your license key remains active for 30 days with unlimited ticket bookings during the subscription period.
