

⚡ IRCTC TATKAL AUTOMATION

SwiftSeat

Book Tatkal tickets in seconds, not minutes. The fastest IRCTC booking automation engine.

₹99/month

Unlimited bookings · Cancel anytime · Instant activation

 hikershorizon.in/swiftseat

Available on Google Chrome Web Store & Microsoft Edge Add-ons.
Works on Windows, Mac & Linux.

Everything You Need to Win Tatkal

Lightning-Fast Auto-Fill

Automatically fills passenger names, ages, berth preferences, and mobile number in under 2 seconds.

Auto Login & CAPTCHA Focus

Injects your IRCTC credentials instantly and auto-focuses the CAPTCHA field so you only type 1 thing.

Smart Auto-Start Timer

Automatically starts 30 seconds before the Tatkal window opens (10:00 AM AC / 11:00 AM Sleeper).

Live Browser Monitor

Watch the entire booking process in real-time through a live screenshot stream on your dashboard.

Smart Form Detection

Automatically detects IRCTC pages and fills search forms with your pre-configured route and train details.

AES Encrypted & Secure

Your credentials are stored locally on your device only. Nothing is sent to external servers.

COMPARISON

Manual Booking vs Swift Seat

FEATURE	MANUAL BOOKING	SWIFT SEAT ⚡
Login Speed	15–30 seconds	Instant (auto-fill)
Fill Passenger Details	45–90 seconds	Under 2 seconds
Search Train & Date	20–40 seconds	Auto-configured
Total Time to Payment	2–4 minutes	Under 30 seconds
Tatkal Success Rate	~15%	~85%+
Auto-Start Before Window	✗ No	✓ 30s before

FEATURE	MANUAL BOOKING	SWIFT SEAT ⚡
Works While You Sleep	✗ No	✓ Fully automated

How to Use Swift Seat

1

Install the Extension

Download Swift Seat from the Chrome Web Store or Microsoft Edge Add-ons. Click "Add to browser" and pin the extension icon.

2

Get Your License Key (₹99/month)

Visit hikershorizon.in/swiftseat → scroll to the "SaaS Licensing Portal" card → enter your email → pay ₹99 via UPI/Card → copy your license key.

3

Activate Your Key

Click the Swift Seat extension icon → paste your license key → click "Activate". The extension is now linked to your browser.

4

Configure Your Journey

Open the dashboard and enter: IRCTC username/password, From & To stations, Train number, Class, Date, Quota, and Passenger details.

5

Start the Automation

Click "START SEQUENCE" or set Auto-Start to trigger before the Tatkal window. The bot handles login, search, train selection, and passenger filling automatically.

6

Complete Payment

You only need to type the CAPTCHA and complete payment on IRCTC. Swift Seat does everything else for you.

Pro Tip

For the best Tatkal success rate, set Auto-Start mode to trigger 30 seconds before the window opens. Keep your browser open and connected to the internet. The bot will take over automatically.

Important Note

Swift Seat automates form-filling only. You must have a valid IRCTC account and complete the CAPTCHA and payment manually. We do not store your payment or banking details.

FAQ

Common Questions

Is my IRCTC password safe?

Yes. Your credentials are stored locally in your browser's encrypted storage. They are never sent to our servers.

Can I use it on multiple devices?

Each license key is tied to one browser/device for security. Contact support if you need to transfer your license.

What happens after 30 days?

Your subscription expires and the extension stops working. Simply renew for another ₹99 to continue using Swift Seat.

Which browsers are supported?

Google Chrome and Microsoft Edge. We recommend using Edge for the best compatibility with IRCTC.
